

# International Services

**COMMUNITY BANKERS**

B A N K

Resourceful. Responsive. Reliable.

A complete array of funds transfer capabilities and foreign currency services are available to you and your customers through Community Bankers' Bank (CBB).

CBB's service partner, Travelex, is the world's largest foreign exchange and non-bank international payments specialist. Doing business in over 30 countries, their capabilities through client financial institutions offer our client banks and their customers secure and efficient methods for completing international transactions.

**International Wires**—An irrevocably cleared direct credit to a nominated bank account. This is the fastest and most secure method for transferring funds. This service can be accessed directly through CBLink which insures that the wire will be transmitted within 60 minutes of receipt at CBB.

**International Bank Drafts**—Issued by Travelex drawn on a reputable local bank on your behalf allowing your customer to send guaranteed cleared funds, after the draft has completed the normal clearing process.

**Desktop Drafts**—"Drafts on Demand"—Allows our client banks to issue foreign drafts quickly and conveniently. Benefits are: Speed—Ordering and issuing foreign drafts immediately for your retail and business customers. Convenience—Flexibility to order centrally and issue at any location within a network for collection. Control—Effective cash management by controlling who within your organization can issue drafts, and the ability to centrally track the presentation and subsequent payment of drafts.

**Fixed and Open Forward Contracts**—Used by business customers to facilitate transaction settlements. These contracts protect profitability by minimizing foreign currency risk.

**Foreign Draft/Check Collection**—CBB will collect foreign drafts or checks deposited at your institution and credit your account upon payment.

**Foreign Currency**—Order currency for your traveling customers directly through CBB for next day delivery to you or your customer.

**"My Travel Wallet"**—Place a link on your website for your customers to order direct from Travelex—foreign currency, foreign denomination travelers' checks, and "Cash Passport" cards. Travelex is committed to offering the best online foreign currency purchase price available. You receive a fee for each use and you never have to touch the transaction. Products are delivered directly to your customer and paid for with their credit or debit card.

**Customized Solutions**—Working through CBB, you can solve that unique foreign payment or collection issue that your business client may have. You do not have to send them to a large competing regional institution for resolution. For example, the Drafts on Demand system and Cash Passport Corporate Expenses program can be placed within your customer's control. They do the work and you keep the customer.
